Some physicians require to be told the nature of your disease—the ENGLIDH BOTANIC PHYSICIAN does not. His perfect knowledge of the human system cashles him to describe the disease without any information from the patient, to explain its original cause, and to gearantee its cure. And, what is more remarks still, be will honsestly and frankly tell whether you can be cured or not. This will satisfy your mind, and save you expense, time, trouble, and disappointment. It will be the means of saving you many a collar; it will save your infer from being shortened by wrong treatment. Has are your life from being shortened by wrong treatment. Has examinations are made without any information from the patient; therefore he thoroughly understands their Physical condition and Phreucological development, without which he never could have performed so many astonishing cares. It should be remembered that this Botanic Physician performs cause thought impossible. If you have tried others and got no relief, if you wish to enjoy good health and long life, if you are wise, you will go and consult Duk RAPIARE, the Rotanic Physician.

Commonwealth, Wilmington, Delaware, 9th of April, 1859:

"An English gentleman, formerly connected with the British Army, and who styles himself the 'English Botanic Physician,' has of late gained an extensive reputation here by his skill in curing all manner of complaints. Some of his patients I have conversed with, and they pronounce his remedies and mode of treatment as very superior. Some have been restored as if by magic. The medicine he used is distilled by hinself from various herbs possessing rare curative properties.

"While acting in the army he devoted his helaure moments to a thorough study of the effects produced by certain medicinal roots and harbs on all manner of diseases. It seems he has found a sure and speedy remedy for all the 'ills that fesh he heir to.' His practice is already extensive, and is daily increasing. In the complaints to which formales are subjected he has no squalfas a large number here have testified that they owe not only their present, good besidt, but their lives, to the skill of this English Botanio Physician."

GOOD NEWS FOR SINGLE MEN CON-TEMPLATING MARRIAGE.

Hear what the Baltimore correspondent of the Odd-fellow, Booneburo', Maryland, said on Thursday, the Jist of May, 1800:

"Numerous curres of diseases caused by early indiscretion having been performed by the Ruglish Botanic Physician, I feel it my duty, having a knowledge of them, to state the fact, believing that in delings o I may do a service to the suffering. One case in particular—that of a young man in this city—is worthy of note. He had become the victim of a habit, the mere allusion to which causes a shudder, and after years of suffering and doctoring gave up all hopes of recovery. He wished to marry, and was learly beloved by as sweet a girl as ever lisped words of affection, but he was fearful, bervous, and prostraied. He dared not wed on account of the shuttered state of his system. He sought relief at the hands of the Belance Physician, and, astonishing as it may seem, all the shown and vigor of youth has returned, and he is now the happy father of a pair of bright boys."

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Afterences that can be made. It is a commented extract of Para Carsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to care. It is believed that such a remedy is wanted by those who suffer from Stammous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted felloweitizens. He we completely this compound will do it has been proven by experiment un many of the worst cases to be found of the following complaints:

SCROPULA AND SCROPULOUS COMPLAINTS. ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, STPHILIS AND SYPHILITIC AP-PROTIONS, MERCERIAL DIREASE, DROPSY, NEU-RALGIA OR TIO DOULOCHEUX, DESILITY, DYS-PERSIA AND INDIOESTION, ERYSTPELAS, ROCE on St. Anthony's First, and indeed the whole class of complaints arising from Investry of тин Вьоов.

THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. I, the timely expulsion of them many rankling disorders are nipped is, the bud. Multitudes can, by the aid of this remedy, spare Lemselves from the endurance of foul eruptions, and ulcerous sores, through which the vestern will stay to sores, through which the system will strive to rid itself of corruptions, if not assisted to do rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its inspurities
bursting through the skin in pimples, cruptions,
or sores; cleanse it when you find it is obstructed and aluggish in the veins; cleanse it
whenever it is fout, and your feelings will tell
you when. Even where no particular disorder
is felt, people enjoy better health, and live
longer, for cleansing the blood. Keep the
blood healthy, and all is well; but with this
pabulum of life disordered, there can be no
lasting health. Sooner or later something
must go wrong, and the gree wachinery of must go wrong, and the gree machinery of

Barsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Scraparilla, or any thing else. During late years the public have been mis-

buring late years the public have been misby large bottles, pretending to give a quart

Still we call this compound Saraparille, and intend to supply such a remedy as shall vescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to curs. In order to secure their complete eradication from the system, the remedy should be judiclously taken according to directions on the bottle.

P 10,000 DOLLARS REWARD IS OFFERED FOR A BETTER RECEIPT

NO OPTUM, CALOMEL, NOR WINERAL POISONIA And Is sufe for the most delicate child.

It is estimated that 150,000 per-sons die annually in the U. States, with consump-tion, and Profes-sor Eberly says that a vast num-ber of these could be saved by the

timely use of some proper remedy.

Dr. Hall's Balan strikes at the root of the Dr. Hall's Balanz strikes at the root of the disease at once, and such is its speedy effect that any one using it freely according to directions for twenty-four or forty-eight hours, and not entirely satisfied with its merits, may return it and roccive back their money. The most distressing cough is frequently relieved by a single dose, and broken up in a few hours' time. The afflicted do not have to take bottle after bottle before they find whether this remedy will afford relief or not. The public have been imposed upon by remedies recommended by certificates which have always originated from some unknown source. We believe that a medicine possessing real merits will effect cures wherever it is used, at home as well as abroad. This is no paregoric preparation, but one which if used in season will save the lives of thousands.

It has effected curse in numerous cases, where the most skillful physicians in this country and in Europe have been employed, and have exercised their skill in vain. Cases which they have pronounced incurable, and surrendered as hopoless beyond a doubt, leaving the patients without a single ray to enliven them in their gloom, have been cured by Dr. Hall's Balsam, and the "victims of consumption" are now vigorous and strong by Dr. Hall's Balsam, and the "victims of sonsumption" are now vigorous and strong as the most robust among us. And these cases are not isolated ones; they are numerous, and can be pointed out in every community where this most unrivaled semedy has been tested.

Be slow, then, to believe the discount of the lungs being gone; or rather let no such apprehension induce you to give up. Act upon the principle that while there will there is hope. You can never be so low

ap. Act upon the principle that while there a life there is hope. You can never be so low that you may not trust, humanly speaking, in liall's lietsam. More than one, nay, hunireds has it brought almost from death to life, when all cless had falled. Give, then, this powerful but harmless remedy a trial. Call on the agent and get a pamphlet gratis. The treatise on consumption alone is worth the price for the medicine. You will find certificates of physicians in Cincinnati, and of others whose cures have been effected here at home, where they can be found.

Messus. A. L. Scovitt & Co.

Dear Sire.—The public generally are fully aware of the thousands of remedies for cusessed lungs, under the titles of Sarasparillas, Pills, Plasters, Limiments, etc., that are daily brought to their notice through the newspapers, by way of advertisements. My object in writing this note for publication is to induce the public, or at least those who are afflicted, (if they will use patent medicines, to use one that contains articles of real use in pulmensry diseases. I am conscious that in so doing I am acting most unprofessionally, and derogatory to the inference of medicalscience and the regular practitioners of medicalscience.

The medicine to which I refer to Dr. Hall's The medicine to which I refer is Dr. Hall's Balsars for the Lungs. I have prescribed it in a large number of caser and always with success. One case in particular to which I wish now to refer, was given up by several physic ans who had been called in consultation with myself. The patient had all the symptoms of confirmed consumption, such as cold night sweats, heetic fever, harassing cough, with continued pain in the lobe of the right ung, attended with severe diarrheat He commenced immediately to get better by the use of the above-named medicine, and was seen restored to his usual health! was soon restored to his usual health! I have also found Dr. Hall's Esisom the most valuable expectorant for breaking up discreasing coughs and colds that I have ever used.

W. D. WRIGHT, M. D.

More Physicians' Testimony We, the undersigned Physicians of Cincinnati, certify that Dr. Wright's statements are entitled to the fullest confidence of the public, and we can fully corroborate what he has said, having used Dr. Hall's Balsam in a number of cases with the hapaiest effect.
